## 6.30pm VerTec's & VRack's

*VerTec's and VRack's...* – This is your opportunity to really listen to the new JBL VerTec system, and its partner in crime the Crown VRack. Glenn Helmut (Technical Specialist & Market Development Representative, Jands) will be giving an overview of the system and its feature set, while showing you just how amazing this sub-compact line array sounds. Although we will be firing up the VerTec over the two days, this is your chance to hear just how much power this small box really produces.

**BYO:** Your favourite CD.
