

The Epson MeetingMate interactive projectors connect people, technology and ideas into a seamless digital experience, facilitating better communication by turning any whiteboard or flat surface into an interactive area. Featuring Full HD WUXGA resolution, a clearly readable display up to 100", plus up to 3,800 lumens of colour brightness and 3,800 lumens of white brightness<sup>1</sup>, this touch-enabled solution supports impactful presentations. Just turn it on and write your ideas or agenda. Display and annotate content using a finger touch or gesture. Easily collaborate with local or remote participants. Then capture, save, print or email — all without a PC.

**KEY FEATURES:**

- 3 x Brighter Colours and reliable performance – 3LCD, 3-Chip Technology. Look for both high colour brightness and high white brightness
- Reinvent your whiteboard – turn any wall or existing dry-erase board into a 100" interactive display for more efficient meetings and collaboration, in the room or across the globe
- Full HD WUXGA display up to 100" – for an optimal viewing experience and clear readability — 3x as big as a 60" flat panel
- Touch-enabled interactivity – turn on the projector and start writing using your finger or the included pens
- Easy to use – just walk in, turn it on and start writing - no computer, software or training is required
- Capture, save and share – no need to transcribe meeting notes or snap a photo; easily save, print or email directly from your projector
- Whiteboard sharing – both local and remote participants can simultaneously annotate content from mobile devices, computers and other MeetingMate projectors
- Wireless device compatibility – wirelessly display documents, files and photos from your iPad®, and Android™ mobile devices with the Epson iProjection™ App
- Convenient DVI-out connectivity – share whiteboard content to a larger display, videoconferencing system or recording device
- Continuous Display Mode – install two interactive displays side by side to achieve an even larger interactive display area
