

E6 Isomax EarSets Omni-Directional Microphones

Light Beige - Flat Response

Perfect on stage or in church, Isomax EarSets are the answer when you need the highest possible sound quality without the bulk and appearance of conventional headsets. Light and springy, Isomax EarSets clip around your ear, not around your head. They never interfere with your hairstyle, headphones or hat. Isomax EarSets are available in four colors, Light Beige, Tan, Cocoa, and Black to blend with the user's appearance. The E6 is supplied with your choice of cables that attach to the EarSet with a snap-on connector. Choose the 1 mm diameter cable for minimum visibility or our exclusive DuraMax 2 mm cable for unmatched life. A wide variety of connectors can be attached at the factory making Isomax EarSets instantly compatible with any mix board or wireless microphone transmitter.

Features:

- Unobtrusive.
- Isomax EarSets are by far the smallest, lightest and least visible headworn microphones.
