

C7184 50W Portable PA System with UHF Receiver and CD/MP3 Player

This compact portable PA system features a sturdy, lightweight injection moulded cabinet. The system includes a high power 50W (RMS) amplifier and can be supplied with an MP3 compatible anti-skip CD player and up to two wireless microphone receivers. The in-built amplifier has balanced or unbalanced wired microphone inputs, plus line in and line out RCA connection. The radio microphone receivers are 96 channel, allowing easy selection of non-interfering frequencies. Each receiver includes individual frequency adjustment and volume control. The system is supplied with in-built batteries and charging facility to provide 3-4 hours continuous use. The two way speaker system comprising of 8 inch woofer and high frequency horn ensures excellent sound quality for both music and speech reproduction. Weighing only 12kgs it is truly portable allowing a wide range of use in schools, places of worship, clubs, auctions etc. Sets up in just seconds for instantaneous use.

- Compact design sets up in just seconds
- Rugged lightweight cabinet
- MP3 compatible CD player
- Inbuilt carry handle
- High performance 50W RMS amplifier
- Built in backup battery
- Optional radio microphone receivers (794-806MHz)
- Suitable for desk or speaker stand mounting
- Optional wireless link for cable free transmission to additional systems
- Optional karaoke echo module
- Provision for 8 ohm extension speaker
- RCA line input/output
- 6.35mm / XLR combination wired microphone input
- 240VAC mains or battery operation

Just what some satisfied customers have to say...

"We tested the Okayo against several competitors, and hands down this was the best sound quality" - Mario Monaco, Monaco Sound

"Excellent value, feature packed with a fantastic sound quality, equal to that of much larger portable PA's. I was blown away! Reasonably weighted as well. The best value portable PA on the market!" - Alan Knowles, Alan Knowles Public Address Systems.

Optional Accessories

Beltpack Transmitter:

- Compact & lightweight with metal housing
- Fitted with Mini XLR 3 Pin socket
- On / Off / Mute switch
- Requires 2 x AA batteries, either alkaline (14 hour use) or NiMH rechargeable (11 hours use). Note: Beltpacks not supplied with a mic.

Protective Pouch

Protective poromeric pouch to suit beltpack lavalier transmitter

Beltpack Charging Pod

UHF Handheld Transmitter Microphone:

- Exceptional performance
- Textured body
- Requires 2 x AA batteries, either alkaline (14 hour use) or rechargeable (11 hours use).

Microphone Headset

Headset microphone to suit beltback. Fitted with 3 pin Mini XLR connection

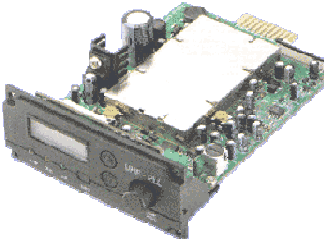

Microphone Tie Clip Lavalier

Lapel microphone to suit beltback. Fitted with 3 pin Mini XLR.

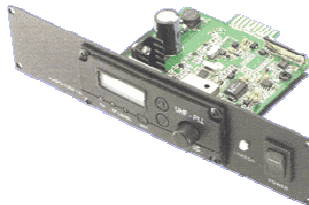

C 7187 UHF wireless microphone receiver:

Installation of this module adds a second wireless microphone to the Portable PA.

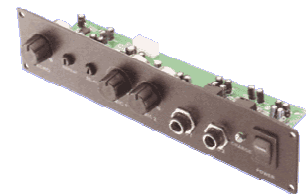

C 7189 Wireless link transmitter:

For larger venues or audiences, the addition of this module allows several units to be used in the same area without the need for speaker or signal wiring. In this situation you have a master and as many slave units as required for the venue. The wireless link module is fitted to the master unit which then transmits any audio signal (including wireless mic, CD player or wired mic) to the slave units, which are fitted with a UHF wireless microphone

C 7190 Karaoke echo module:

For karaoke applications this module includes adjustable repeat and delay, plus two local wired 6.35mm mic inputs.

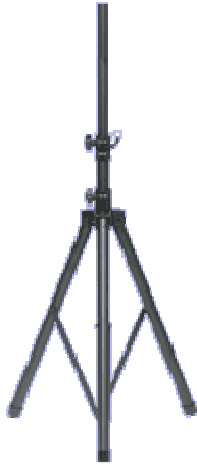

Okayo Portable PA Cover

Bag to suit all Okayo portable PA models. Constructed from tough woven polyester material for the ultimate protection. Rear zippers allow easy access to all settings and connections.

Heavy Duty Speaker Stand With Locking Pin

Lightweight aluminium construction and collapsible for easy transportation. Anti-sway bars on legs provides stability.

Microphone Floor Stand With Boom

Sturdy telescopic stem with friction grip adjustment and foldup legs. Includes screw adaptor attachment (5/8") for microphone holder etc. Height adjusts from 96 to 160cm with 70cm adjustable boom.

Supercardioid Microphone

This super-cardioid microphone features a well weighted zinc diecast housing with 3 pin XLR male connector and on/off switch. It is supplied complete with 4.5m twin shielded balanced lead (3 pin XLR female to 3 pin XLR male).

Specifications
Polar pattern: Unidirectional
Housing: Zinc diecast
Impedance: 300 Ohm ± 30%
Sensitivity: -74dB ±3dB
Freq. resp.50Hz - 16kHz
