

Grandview Scissor Lift Screens

The Grandview Scissor Lift Portable Screen ticks all of the boxes for a portable screen. From its flip out legs that tuck away for transport and self-levelling feet, to its unique scissor lift mechanism, this well designed product is easy to use.

The scissor mechanism is self-supporting, and ensures it extends or retracts under constant pressure.

Why is this important?

It makes your screen super easy to use - you don't need to be strong or tall, and it won't suddenly retract risking injury or damage.

The Grandview Scissor Lift Portable Screen has many applications - from business presentations, home use or in training scenarios.

Choose from various sizes and 4:3 or 16:9 formats.

Features:

- An alternative to the traditional tripod screen.
- Screen occupies a smaller footprint on the floor ideal for smaller meeting rooms or where you want to put the screen up against a wall.
- Screen is smoothly pulled up from the casing and is supported at the back by an innovative scissor design.
- This unique design maintains screen flatness.
- Available up to 100" in 4:3 aspect ratio.
- The casing is stabilised by feet that swivel outwards from the casing. These feet are self-levelling which is ideal for uneven floors.
- Quick and easy to raise and lower particularly for smaller people.
- There is a lockable handle built into the casing, making it easy to carry.
- Lightweight and very easy to transport.
- Projection surface is Plana R.
- Black casing.
