

Tourguide 2020-D System

No longer will you have to strain your voice and shout! On the contrary, you can relax and clearly communicate with your group at normal conversation level or even whisper. It is so simple all you need to do is to speak into a microphone and the participants of your tour will hear your voice loud and clear thanks to highly impressive receivers. Based on a digital transmission technique, the Sennheiser Tourguide 2020-D system will also ensure that every word will reach your audience without any background noise or interference. This means that they will be able to pay complete attention while you are speaking.

Wireless Belt Pack Tour Guide Transmitter SK-2020-DUS

Sennheiser Tour Guide SK-2020-DUS will allow you to deliver a highly professional guided tour. Combining the bodypack transmitter with a headworn or clip-on microphone, will give you total freedom of movement during your tour. You will have both hands free to describe an object, make a presentation and express your point. The Sennheiser transmitter can be easily and comfortably operated, and is highly robust. The back-lit display confirms channel choice, the radio signal and the status of the battery. Two jacks for the microphone and line ensure variable utilization. For example, you will be able to transmit an external audio source such as music from a portable CD/iPod player via your transmitter and continue to talk or mute the microphone.

Wireless Hand Held Microphone SKM-2020D

Sennheiser SKM 2020-D, speaking into a hand-held microphone is the easiest way to address your audience. Should a tour participant pose a question, just hand over the microphone and everything will get clearly through to everybody. Interviewing an expert in front of your audience will make your tour even more interesting.

The Sennheiser SKM 2020-D efficiently attenuates unwanted background noise. The transmitter is easy and comfortable to operate and highly robust. Check the back-lit display for channel and battery status. The rechargeable battery lasts for a tour of 8 hours straight. After the tour, simply quick-charge the battery pack in the charging case EZL 2020-20L which has an extra slot to charge and store a spare pack.

Wireless Stethoset Receiver HDE-2020DUS

Sennheiser HDE 2020-DUS Stethoset Tour Guide receiver is the comfortable to wear receiver of the digital Tourguide System 2020-D. This truly unique device integrates both the receiver and headphones and delivers a number of advantages for you. No longer will your audience have to carry any more equipment than is absolutely necessary. Being a one piece device, they will no longer risk a tangle of cables! The powerful battery ensures that the device will work for up to 8 hours. Regardless of whether you are providing your tour in a big city or a large corporation, TourGuide 2020-D will ensure that your tour will proceed without interruption. The Stethoset receiver automatically deactivates itself the moment that it is taken off, meaning battery life will be preserved. No longer will the tour guide need to check all of the sets after one tour finishes and before the next tour starts. Your tour participants will be able to individually adjust the volume through a rotary control on the receiver, without the need to even take the device off. An LC display will clearly confirm the volume, battery status, quality of reception and the channel being listened to. Channels can easily be set and adjusted by using the middle buttons. The reception range is about 100 m if your tour is outdoors and about 50 m if your tour is indoors.

Wireless Receiver EK-2020

The EK 2020-D can be used with headphones or an induction neckloop for transmitting the sound to hearing aids equipped with a T coil. Digital transmission ensures optimum reception quality, with a range of up to 100 metres outdoors and around 50 metres indoors. The backlit receiver display shows all settings at a glance. Of course, the bodypack receiver can be used in mixed systems with stethoset receivers. All your guests need to do is connect their headphones or induction neckloop to the receiver. That's it! The receiver can conveniently be clipped to the shirt pocket or worn on a lanyard. When no signal is received, or when the headphones or neckloop are disconnected, the receiver will automatically switch off to save battery life. The operating time is up to 16 hours. Earphones for Wireless Monitor applications. The IE 4 reproduces an outstanding sound quality and high dynamic. It is equipped with exchangeable ear sleeves, which gives an optimum fit to different ear canals. The results are high isolation against environmental noise as well as a very good bass response.

Storage Charger Case EZL-2020-20L

The Sennheiser EZL-2020-20L charger case has been designed to be highly user-friendly. It acts as both the storage case for all equipment and charging station for the TourGuide receivers and transmitter. Twenty charging bays for the receivers and two charging bays for the transmitter—or its rechargeable battery pack—are provided. Truly impressive feature of the charging case is the Copy button. All you need do is to set one receiver to the correct channel, press this button just once, and all of the other receivers in the case will immediately be set to the same channel.

Wireless Compact Transmitter SR-2020-DUS

Sennheiser SR-2020-DUS, the compact transmitter will provide perfect audio in exactly the right way. It allows for conferences or presentations to be interpreted simultaneously in up to 8 languages. Other audio content can be selected from CD, DVD. The transmitter is operated very easily and comfortably. Important parameters such as channel selection and line/mic input levels can be checked on the back-lit display.

TourGuide Trolley GZR-2020

The trolley GZR 2020 eases moving the TourGuide charging case EZL 2020-20L. The trolley can be easily locked on the charging case. The length of the trolley can be adjusted in two steps (900 mm or 980 mm) so the handle is on a comfortable height. If folded the trolley is not longer than the case itself so the case can be put down without removing the trolley
